

Help us reduce collisions and casualties - and save lives

## How to submit camera footage

To submit camera footage of dangerous or illegal road user behaviour please visit:

[saferessexroads.org/extraeyes](https://saferessexroads.org/extraeyes)

And follow the instructions on the page.

## 'Extra Eyes' across the community

We also need members of the community to let us have any other 'intelligence' that will assist in detecting criminal driving behaviour, such as driving whilst disqualified or whilst over the prescribed drink/drug drive limit. This will enable the police to use their resources more efficiently to keep Essex safer - 'Extra Eyes' across the community, and not just behind a camera.

You can pass on information to Crimestoppers in two ways: by calling **0800 555 111** any time of day or night, or by filling in a secure 'giving information' form on the Crimestoppers' website: [crimestoppers-uk.org](https://crimestoppers-uk.org)

Send us the footage if you capture dangerous road user behaviour... and we'll take action to make Essex roads safer

# Help us reduce collisions and casualties - and save lives

**Most of the people who use roads across Essex do so responsibly and with care and consideration for other road users.**

**However, a small number behave irresponsibly and inconsiderately and are a danger to themselves and others.**

We want your help to identify these people- by sending in your camera footage for review by Essex Police.

If we think the behaviour on film is dangerous or illegal we will either:

- Contact the person and explain to them what the consequences of their actions could have been.
- Offer them a driver retraining course to improve their behaviour and safety
- Prosecute offenders, using the footage you supply as evidence.

Submitting your camera footage is quick and easy to do - see the rear of this leaflet to find out how.

**Thanks for your help and support - together we can make Essex roads even safer, and reduce collisions and casualties.**
